Warsaw, 00-545

GAMIVO is a leading digital platform for gamers, offering a diverse range of digital products including video games, software, gift cards, and in-game items.

REFERENCE LETTER

To Whom It May Concern,

I am writing this letter to recommend Translators Family for their translation and localization services. As a company operating in the gaming industry, GAMIVO has had the pleasure of working with Translators Family on a number of projects since 2021, and they have consistently met our expectations.

First, Translators Family translated our website into multiple languages, including Czech, Dutch, Swedish, Italian, Portuguese, French, German, Polish, Spanish, and Korean. Their dedication to accuracy and attention to detail ensured our message was effectively conveyed to a global audience. Since then, we have continued collaborating with Translators Family on our localization projects.

One notable project involved the translation and localization of our gaming platform using the Lokalise tool. This multilingual project required translating content from English into German, Spanish, French, Portuguese, and Italian. Despite the tight turnaround time of 2-3 days, Translators Family delivered high-quality translations. Their commitment to meeting deadlines without compromising quality illustrates their high capabilities.

In conclusion, I endorse Translators Family for their quality translation and localization services. Their professionalism, reliability, and dedication to excellence make them a trusted partner for GAMIVO.

Sincerely,

Andrzej Bazylczuk

PR & Content Manager
